SOUTH AUSTRALIA

Future Youth Initiative (FYI) aims to improve the social and emotional wellbeing of children, youth and their families.

### Who is FYI for?

FYI is for 12-21 year old young people who are:

- Enrolled in school but are at risk of leaving early
- Attending school but not actively participating in their education
- About to leave school or have left and are not pursuing employment or further education

We understand that many young people live and learn in their own unique way. Our service offers young people an opportunity to look towards the future with hope and acceptance.

### What does FYI offer?

We offer case management and a range of programs and activities that help young people to work towards independence and wellbeing.

Young people can enrol in our day programs from one to five days per week. They can set their own goals and tailor their timetables with sessions and courses from the areas of:

- Wellbeing
- Employability
- Education
- Living Skills

FYI day programs can be combined with case management at a discounted rate.

FYI offers a range of learning options, including individual sessions, small group lessons, informal drop-in, independent learning and online learning. Flexible start and finish times are available for late risers or young people who have other commitments.
