

Harm from
gambling?

Share your Story

**Have you or a family member ever experienced harm from gambling?
Share your story through the Relationships Australia SA
Consumer Voice Program.**

The Consumer Voice Program trains and supports people across the state to share their stories of gambling harm. Consumer Voice stories make a difference.

By sharing these stories with others, you can help to:

- increase community awareness and understanding of the issue
- spread the word about seeking support
- offer hope to others who are affected by gambling harm
- reduce the stigma associated with problematic gambling.

Free training

Consumer Voice offers professionally delivered training, supported by a peer support worker with lived experience of gambling harm. The training can assist with crafting your story, and developing the confidence and skills to share your story with others.

Speaking opportunities

Once you have completed the training, you can choose to share your story publicly. These community education presentations are not compulsory. For some attendees, the training itself is valuable for their recovery.
